The screenshot shows a Microsoft Internet Explorer browser window displaying the ENERGY STAR Small Business page. The browser's address bar shows the URL: http://www.energystar.gov/index.cfm?c=small_business.sb_index. The page features a blue header with the ENERGY STAR logo and the text "ENVIRONMENTAL LEADERSHIP ADDS VALUE TO YOUR BOTTOM LINE AND CORPORATE REPUTATION". Below the header is a navigation menu with categories: PRODUCTS, HOME IMPROVEMENT, NEW HOMES, BUSINESS IMPROVEMENT, PARTNER RESOURCES, and WHAT IS ENERGY STAR? NEWS ROOM. The main content area is titled "Small Business" and includes a section "What ENERGY STAR Offers" with a link to "Free support for small facility energy savings." and an "En Español" button. There are several sub-sections: "Get the Guide book" with links for "See Partners by State" and "by Facility Type"; "Success Stories & Awards" with links for "Submit Your Story", "Award Winners", and "Apply for the Annual Small Business and Congregation Awards"; and "Specific Organizations" with a note that ENERGY STAR has specific information for various small business types. On the right side, there is a "DID YOU KNOW?" section stating that small businesses can typically save as much money and prevent as much pollution, per square foot, as large organizations. Below this is a section for "ENERGY STAR labeled products can help your business save even more..." with links for "Purchasing & Procurement", "Find a Store", "Find Special Offers", and "Find products for your business". At the bottom right, there is a "Simple Energy Savers" section with a list of tips: 1. Turn off lights, 2. Install occupant sensors, 3. Buy ENERGY STAR labeled products, and 4. Adjust lighting (more great tips!). A small photo of three people is visible at the bottom right of the page.
