If this link does not work, try using this path:

Go to:

<http://www.epa.gov/>

Under Key Topics, click on Wastes>

Click on Office of Solid Waste (OSW) Homepage>

Under Voluntary Partnership Programs, click on Waste Minimization

Screenshot:

The screenshot shows a Microsoft Internet Explorer browser window displaying the EPA's Waste Minimization homepage. The browser's address bar shows the URL: <http://www.epa.gov/epaoswer/hazwaste/minimize/index.htm>. The page features the EPA logo and the text "U.S. Environmental Protection Agency". The main heading is "Waste Minimization". Below this, there is a search bar and a "GO" button. The page content includes a welcome message: "Welcome to the National Waste Minimization Program!" followed by a paragraph stating: "Waste is lost raw material, lost product, and lost profit. Waste minimization can reduce these losses while improving your bottom line and environmental results. EPA's National Waste Minimization Partnership Program can get you national recognition for making these improvements." Below this, there is a section titled "EPA's Waste Minimization Program" which describes the program's goals and lists several key initiatives: "National Waste Minimization Partnership Program", "Waste Minimization Priority Chemicals (WMPCs)", and "Waste Reduction and Energy Recovery Initiative and Environmental Retail Initiative". A small graphic of a recycling symbol is visible next to the "National Waste Minimization Partnership Program" text. At the bottom of the page, there is a list of stakeholders: "Manufacturing and other commercial companies", "Federal, State and local government agencies", "Non-governmental organizations (NGOs)", and "Consumers". The browser's status bar at the bottom indicates "Internet".
