

Monthly Progress Report

COAL MINING – PENNSYLVANIA INDUSTRY OF THE FUTURE Industry and Academic Collaboration Programs

Dominion Center for Environment and Energy
School of Engineering
University of Pittsburgh

July 2004

Activities Undertaken

During the month of July, efforts were focused on finalizing the project report based on comments received from members of Advisory Board. A meeting of the Steering Committee of the Advisory Board was held on July 22, 2004 at University of Pittsburgh. The entire meeting was devoted to provide a critical review of the draft report. A copy of the meeting minutes is attached herewith. The final project report will be submitted to PA-DEP for official review and publication in early August.

Staff and Monetary Resources Expenditure

No expenditures were charged to the project during the month of July 2004.
