Preface.....	i
Acknowledgements.....	iv
Introduction.....	1
Unit 1: Where’s the Groundwater?.....	3
Saturated Zone/unsaturated zone/water table/ hydrologic cycle/wells/recharge/discharge/ cone of depression/overwithdrawal/subsidence/ saltwater intrusion	
Unit 2: How Does It Travel ? .....	9
Porosity/permeability/impermeability/ sedimentary rocks/crystalline rocks/ fractures/faults/unconsolidated deposits/ perched water table/aquifer/ confined aquifer/artesian wells/residence time	
Unit 3: What’s in the Groundwater? .....	13
Dissolved minerals/groundwater acidity/ leaching/septic systems/toxic materials/ leachate/landfills/hazardous waste sites/ leaking underground storage tanks/nitrates/ acid mine drainage/radioactive substances	
Unit 4: Pennsylvania’s Regions .....	20
Coastal plain/piedmont/blue ridge/ new england/ridge and valley/ caves and sinkholes/appalachian plateau/central lowlands	
Unit 5: What You Can Do to Help.....	26
Glossary .....	28
