Chapter 92a, NPDES Permitting, Monitoring, and Compliance

Several provisions of the proposed Chapter 92a would affect CAFO (Concentrated Animal Feeding Operations) facilities and CAAP (Concentrated Aquatic Animal Production) facilities. CAFOs and CAAPs are considered point sources that require NPDES permits to operate, and are regulated in Chapter 92a.

The Department seeks the Board's input on the following proposed sections of Chapter 92a that are related to CAFO and CAAP facilities:

§ 92a.28. Application fees.

§ 92a.32. CAAP. (*Application requirements*)

§ 92a.50. CAAP. (*Permit conditions*)

§ 92a.62. Annual fees.

Sections 92a.31 and 92a.49 address CAFO application requirements and permit conditions, but no revisions to these requirements are proposed as part of this rulemaking package.
